About ”WE GO THAILAND” PLATFORM

Concept of ”WE GO THAILAND” Platform

”WE GO THAILAND” platform is a Mini Program in WeChat to facilitate Chinese tourists to apply for permission to travel to Thailand under the situation of the COVID-19 and processing of Visa applicants to travel to Thailand.

There are 3 main steps as,

1. Before Travel

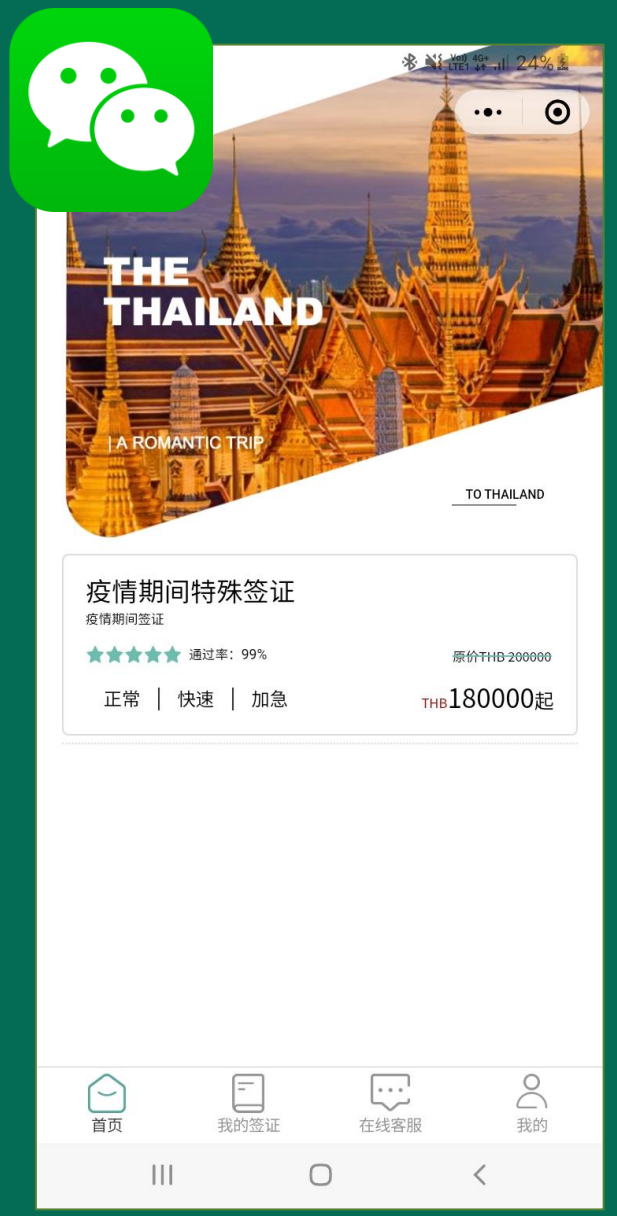

Submitting a request for a E-Visa on Arrival (E-VOA) to the Immigration Office before travel to Thailand.

2. During Travel in Thailand

Connecting to Thai application (Mor Chana) to follow up during traveller stay in Thailand according to the regulations of the Center for the Situation Management of the Epidemic of Corona Virus 2019 (CCSA)

3. Travel back to China

Immigration verify Covid-19 status of traveller from the system when travel back to China.

About ”WE GO THAILAND” PLATFORM

Strength of Platform

FIRST IN ASIA

Only one platform in Asia that uses CHAT APPLICATION to allowing tourists to make visa arrangements and check their COVID-19 status in one place. And can also connect to the check-in application (CHECK-IN APPLICATION) to know where tourists visit.

STRONG PARTNERSHIP

Joint development between Emerald Tech Advance Ltd., a Thai application developer, and WeChat, the most popular chat application in China with more than 1,200 million users, making it easier and safer for Chinese tourists to travel to Thailand.

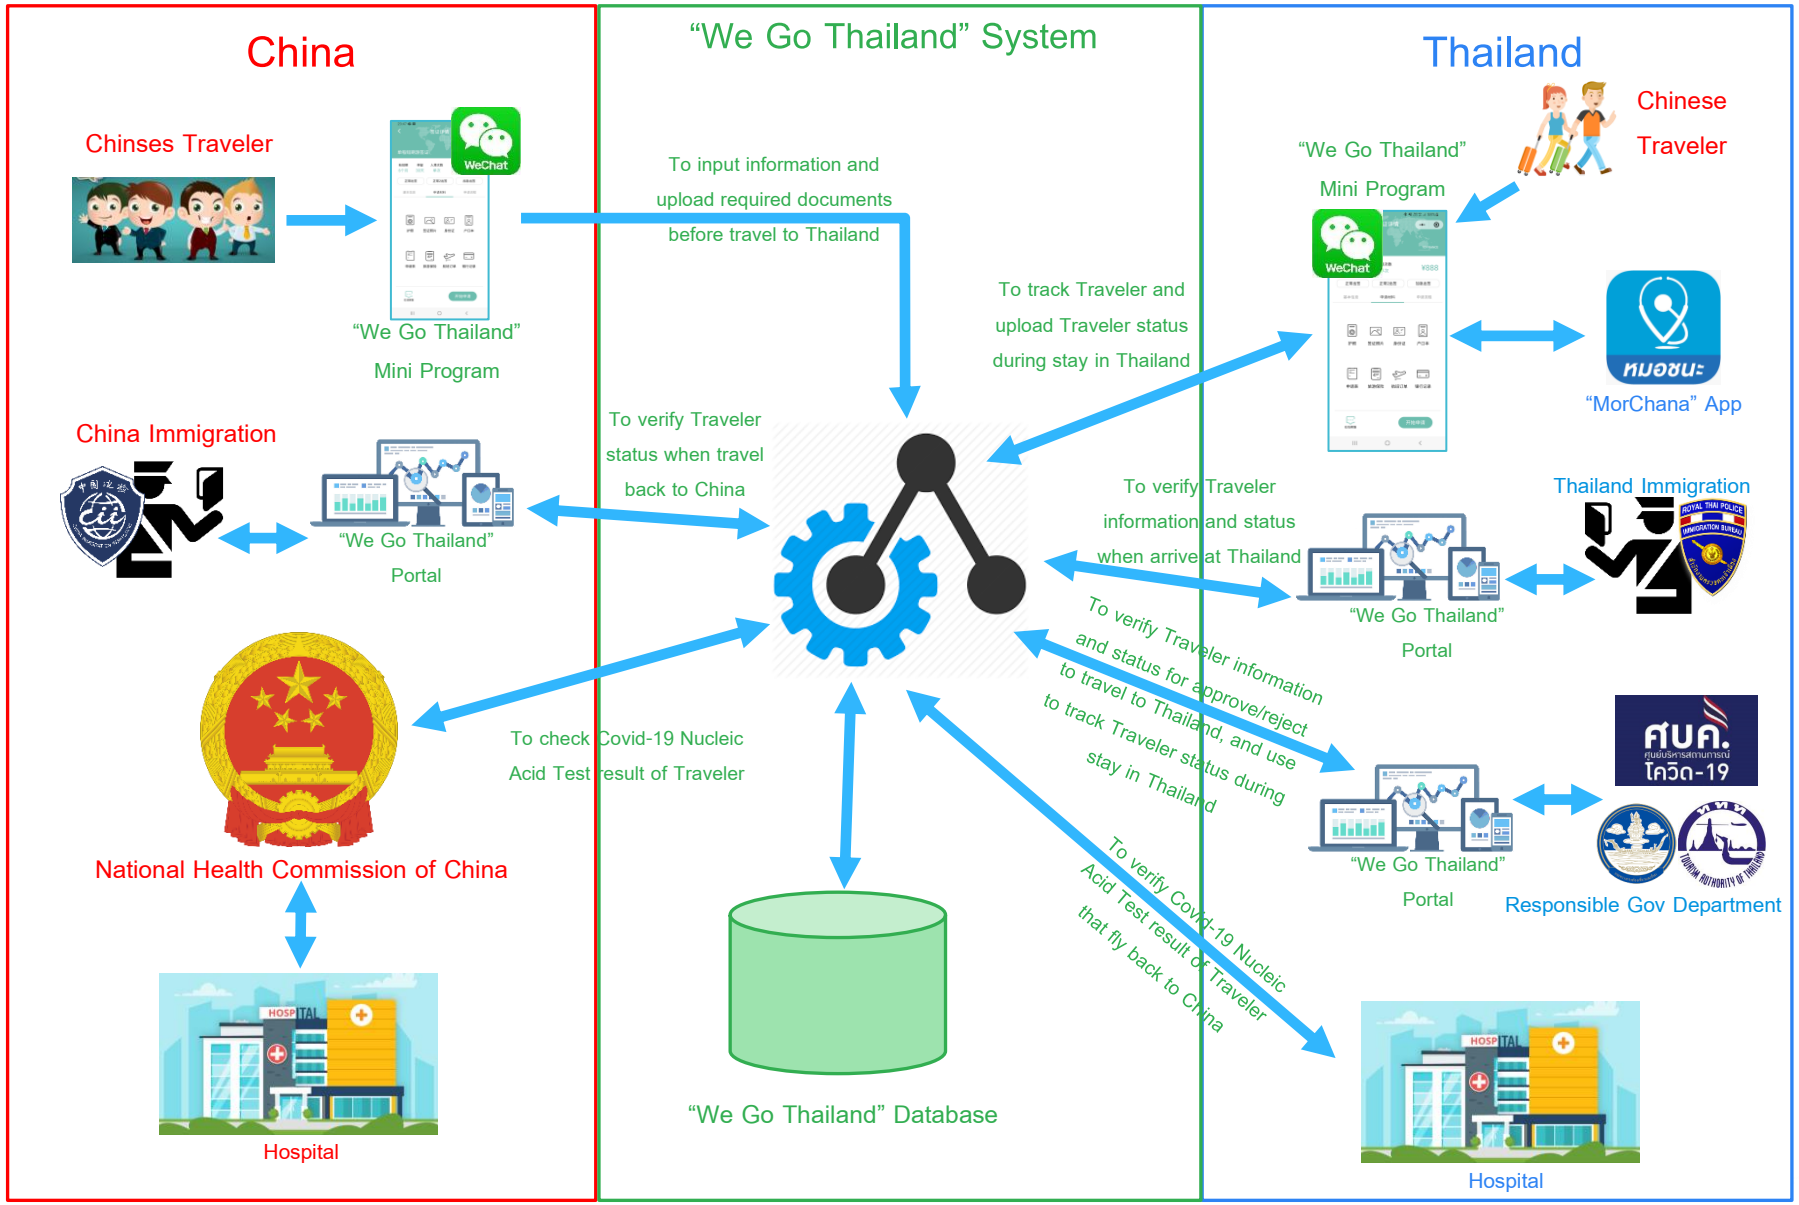

BLOCKCHAIN & BIG DATA

“WE GO THAILAND” PLATFORM USING BIG DATA TECHNOLOGY FOR SURVEILLANCE, PROTECTION, AND FURTHER FACILITATING TOURISTS.

About ”WE GO THAILAND” PLATFORM

Platform Benefit

- Tools to provide accurate public health information for each traveller about their Covid-19 risk status, both before travel, while living in Thailand, and before returning correctly under the supervision of the Chinese and Thai ministries of health that will increase confidence in the decision to allow travellers to enter Thailand systematically.
- Traveller behaviour and spending data of travellers during their stay in Thailand. which products and services are spent. These are important information for future tourism development.
- Travellers' Covid-19 screening data can be checked back to the database of the Ministry of Health of China to ensure screening before entering Thailand.
- Tourism Authority of Thailand can retrieve information about travel, accommodation and activities of the traveller during their stay in Thailand to be used to track travellers in the event of an emergency.
- Supported by Tencent/WeChat to open a channel to promote Thailand to Chinese traveller, and exchange information to plan for proactive marketing through WeChat in the future.
